Secrets of Takwin		-	-	The Alchemist has bound their Takwin creature to themselves with unbreakable bonds. If this Alchemist is hit by an attack while within 1" of their Takwin Homunculus, you can apply the hit to the Homunculus and make the Injury Roll for it instead of the Alchemist.			
Alchemist Armour	Armour	-	-2 INJURY MODIFIER, NEGATE FIRE, NEGATE GAS	Protection From Harm: Add- 1 INJURY DICE to Injury Rolls for attacks made by Weapons with the FIRE or GAS Keywords that target a model that has Alchemist Armour, even if the attacking weapon has the IGNORE ARMOUR Keyword.			
Cloak of Alamut	Equipment	-	-	Blend In: The Ranged Attack Modifier for a target being in Cover is -2 DICE instead of -1 DICE if the target has a Cloak of Alamut.			
Sniper Scope	Equipment	-	-	Enhanced Accuracy: When this Glory Item is given to a model, you must choose 1 Ranged Weapon that the model already has and which has the word "Rifle" as part of its name. That Weapon gains the IGNORE LONG RANGE Keyword.			
Ability	Description						
Mastery of the Elements	When this model is deployed for the first time in a game, you can give one of the following Keywords to all of the Jabirean Alchemist's Ranged Weapons and Melee Weapons: FIRE or GAS or SHRAPNEL. All of the Weapons have the same Keyword. If the Weapon already has the Keyword, it does not receive it a second time.						
Elemental Change	ACTION: A Jabirean Alchemist can take an Elemental Change ACTION. If they do so, take a Risky Success Roll for the model. If the roll is a Failure, nothing happens and the Jabirean Alchemist's Activation ends. If the roll is a Success or a Critical Success, you can change the Master of the Elements Keyword on all of the Jabirean Alchemist's Weapons to one of the other two choices.						
Ranged Proficiency	Add +1 DICE to the Ranged Characteristic of a model with this Skill.						
Assassinate	Add +1 DICE to rolls for attacks made by a model with this Skill if the target has not yet been Activated this Turn.

In addition, a model with Machine Armour cannot be equipped with a Trench Shield and has a Charge Bonus of D3" instead of D6". • Standfast: When a model that has Machine Armour suffers a Down result on the Injury table, it is treated as a Minor Wound result instead.			
Wind Amulet	Equipment	-	-	Gusts of Wind: Once per game, when you Activate a model that has a Wind Amulet you may declare that it will use the amulet before it takes any ACTIONS. Using the Wind Amulet adds 3" to the model's Movement Characteristic for the rest of the Activation.			
Ability	Description						
Artificial Life	Add -1 INJURY DICE to Injury Rolls for a Brazen Bull.						
Trample	ACTION: A Brazen Bull can take a Trample ACTION. If it does so, it can make a Melee Attack that must target an enemy model that is Down. A Trample Melee Attack does not use a Melee Weapon and has the IGNORE ARMOUR Keyword.						
Strength of Samson	Add +1 INJURY DICE to rolls for Melee Attacks made by a model with this Skill. In addition, a model with this Skill has the STRONG keyword.

Fire Shield		Shield	-	-1 INJURY MODIFIER, NEGATE FIRE	Fire Shield: Add -1 INJURY DICE to Injury Rolls for attacks with the FIRE Keyword that targets a model that has a Fire Shield, even if the attacking weapon has the IGNORE ARMOUR Keyword.		
Ability		Description					
Artificial Life		Add -1 DICE to Injury Rolls for a Takwin Homunculus.					
Pummeling Blows		A Takwin Homunculus can make a Melee Attack even though it does not have any Melee Weapons.					
Re-creation		If a Takwin Homunculus is killed in the post-battle sequence, you do not have to remove it from your roster. Instead, you can spend 40 ducats in the following Quartermaster Step to leave it on the Roster.					
Massive Size		The Homunculus' size is increased to huge proportions. It now has a base size of 50mm and it gains the Keyword TOUGH. This formula cannot be combined with the Wings formula.					
Human Hands		This Takwin Homunculus can have Ranged and Melee Weapons from the Iron Sultanate Armoury. It can also have a Trench Shield or a Fire Shield. A Homunculus cannot have the Human Hands Alchemical Formula if it has the Wings Alchemical Formula. It cannot use its Pummelling Blows ability if it is armed with any Melee Weapons. If a Takwin Homunculus with Human hands also has an Additional Arm, then it can have three 1-Handed Melee Weapons or two 1-Handed Melee Weapons and one 2-Handed Melee Weapon, and it can have three 1-Handed Ranged Weapons or two 1-Handed Ranged Weapons and one 2-Handed Ranged Weapon. If it takes a Shield, then the Shield replaces one of the Melee Weapons it can have but the Shield-combo rule cannot be used for any of its weapons. In addition, when it takes a Fight ACTION it can make 1 Melee Attack with each Melee Weapon that it has, one after the other. If it makes more than 1 attack, the Off-Hand Melee Modifier applies to the last Melee Attack that it makes. When it takes a Shoot ACTION it can make 1 Ranged Attack with up to two Ranged Weapons that it has, one after the other.					
Inhuman Strength		The musculature of the Homunculus is reinforced, replaced and strengthened. Give this Takwin Homunculus the STRONG Keyword, change its Melee Characteristic to +1 DICE, and increase its base size to 32mm					

252 DUCATSAL-MASYUKH, HUNTER OF HUNTERS - FAVOURED TAKWIN HOMUNCULUS	
Ability	Description
Additional Arm	This Takwin Homunculus adds the CLEAVE 2 Keyword to attacks made with its Pummelling Blows Ability.
Additional Head	This Takwin Homunculus can have both the Hawk Eyes and Hypnotic Eyes Alchemical Formulas.
Hawk Eyes	The eyesight of the Homunculus is based on that of a predatory bird. Change the Ranged Characteristic of this Takwin Homunculus to +1 DICE. A Homunculus cannot have the Hawk Eyes Alchemical Formula if it has the Hypnotic Eyes Alchemical Formula unless it also has the Two Heads Alchemical Formula.
Hypnotic Eyes	Add -1 DICE to Success Rolls for Melee Attacks that target this Takwin Homunculus, unless the attack is made by a Sniper Priest or a model with the BLACK GRAIL Keyword. A Homunculus cannot have the Hypnotic Eyes Alchemical Formula if it has the Hawk Eyes Alchemical Formula unless it also has the Two Heads Alchemical Formula
Gargantuan Size	A Takwin Homunculus can only have this Alchemical Formula if it already has the Human Hands, Inhuman Strength, and Massive Size Alchemical Formulas. The Homunculus can use 1 Weapon that can usually only be taken by a Brazen Bull, and its base size is increased to 60mm.

Shovel		Equipment	-	-	Dug In: A model equipped with a Shovel that starts the game on Open terrain has the COVER Keyword until it moves away from its starting position. In addition, a model equipped with a Shovel can use it as a 2-Handed Melee Weapon instead of using any other Melee Weapons it has.		
Ability		Description					
Set Mine		A Sultanate Sapper can take a Set Mine ACTION if they are in contact with a terrain piece that measures up to 8" by 8". If they do so, take a Success Roll for the model and add +2 DICE to the roll. If the roll is a Failure, nothing happens. If the roll is a Success or a Critical Success, the terrain piece becomes Mined.					
Fortify		A Sultanate Sapper can take a Fortify ACTION. If they do so, take a Risky Success Roll for the Sultanate Sapper. If the roll is a Failure, the Sultanate Sappers Activation ends. If the roll is a Success or a Critical Success, the Sultanate Sapper has the COVER Keyword until they move away from their current position.					
Defuse Mine		When you move a Sultanate Sapper into contact with a terrain piece that has been Mined, you can say the Sultanate Sapper will halt and try to defuse the mine before it detonates (► see Detonating Mines below). If you do so, take a Risky Success Roll for the model. If the roll is a Failure, the mine detonates anyway and the Sultanate Sapper's Activation ends. If the roll is a Success or a Critical Success, the mine does not detonate and the terrain piece is no longer considered to be Mined					
Forward Positions		When you deploy a Sultanate Sapper for the first time in a game, you must deploy them up to 6" away from your deployment zone and in contact with a terrain piece that is at least ½" high.					
Detonating Mine		When a model moves into contact with a Mined terrain piece, the mine will detonate unless the model is the one that set the mine, or has the Defuse Mine ability (► see above). Make an Injury Roll with the SHRAPNEL Keyword for the model that detonated the mine. The terrain piece is then no longer considered to be Mined. If the model wasn't taken Down or Out of Action, it can then continue its move. Flying models only detonate a mine if they finish a move in contact with a Mined terrain piece (they can fly across it without setting it off).

Ability		Description					
Sworn Brethren		When you recruit a Mamluk Faris to your Warband, before adding it to your roster, you can say it will form a FIRETEAM with 1 other model from your Warband that has the ELITE Keyword. Both of the models gain the FIRETEAM Keyword. Note that the Mamluk Faris's FIRETEAM is in addition to any other FIRETEAMS your Warband can have, and that if a Mamluk Faris is in a FIRETEAM with a model from a New Antioch Warband, then only the model from the New Antioch Warband can use the Concentrated Fire special rule.					
Martial Prowess		Mamluks are disciples of furūsiyya, the knightly discipline passed on through generations, they practice ceaselessly and thus have few equals. The Mamluk's Greatsword does not have the HEAVY Keyword, and the Jezzail carried by a Mamluk Faris has the ASSAULT Keyword and Shield Combo stipulation.					
Automaton Destrier		If the scenario you are playing allows Infiltrators to use their special deployment rules, after any Infiltrators have deployed, you can deploy the Mamluk Faris within 1" of any edge of the battlefield and more than 8" away from any enemy models.

Rules

+/- Dice:

Dice that are added to Success Rolls. If the Keyword applies to a Weapon, the dice are only added to Success Rolls for Attacks made with it.

+/- Injury Dice:

Dice that are added to Injury Rolls. If the Keyword applies to a Weapon, the dice are only added to Injury Rolls for Attacks made with it.

+/- Injury Modifier:

Modifiers that are applied to the result of an Injury Roll. If the Keyword applies to a Weapon, the modifier is only added to Injury Rolls for Attacks made with it.

Ammunition (Keyword):

If a model has a piece of Battlekit with this Keyword, it will use it in the next game that it takes part in. When the model is deployed, say which Ranged Weapon the Battlekit will be used for. It gains the (KEYWORD) until the end of the game. The Ranged Weapon you choose cannot have the BLAST, FIRE, GAS, or SHRAPNEL Keywords, and cannot have more than one type of AMMUNITION.

Assault:

Ranged Attacks made with Weapons that have this Keyword do not prevent a model from Charging or making a Melee Attack during the same Activation.

Automatic:

When you take a Shoot ACTION with a Ranged Weapon that has this Keyword, you can make a number of Ranged Attacks with this weapon equal to X, one after another. The attacks can target different enemy models, as long as they are all within 6" of each other. Resolve each attack one at a time using steps 2 to 6 of the Ranged Attack Sequence. Any BLOOD MARKERS that are spent only modify the Injury Roll for the attack they are spent on, and do not modify Injury Rolls for subsequent attacks.

Block:

Add -1 DICE for Melee Attacks targeting a model with this Keyword, or that has a Weapon that has this Keyword, if the attacker made a Charge ACTION before making the attack this round.

Critical:

CRITICAL: Add +2 INJURY DICE instead of +1 INJURY DICE when a Critical Success is rolled for an attack made by a Weapon with this Keyword.

Cumbersome:

Weapons with this Keyword require two hands to use, even if the model has the STRONG Keyword. However, they can still be used alongside a Shield with the Shield Combo stipulation.

Fear:

Add -1 DICE to a Melee Attack that targets a model with this Keyword. Models that cause FEAR are immune to FEAR themselves.

Fire:

After making the Injury Roll for a Weapon with this Keyword, place 1 extra BLOOD MARKER next to the target model (even if the Injury Roll has No Effect)

Flamethrower:

When a Weapon with this Keyword is used to make a Ranged Attack it is automatically a Success. Do not make a Success Roll for the attack. Note that this means that the attack cannot achieve a Critical Success.

Heavy:

If carrying a weapon, armour or equipment with this Keyword, the model cannot move/dash and shoot during its Activation, and the model cannot roll D6 and add it to the Charge move. A model can only carry one item with this Keyword.

Ignore [Modifier] / Ignore Off-Hand Weapon:

Ignore the Success Roll or Injury Roll modifier that is specified. For example, the Success Roll for an attack made with a Ranged Weapon that had the IGNORE COVER Keyword would not be affected by the -1 DICE modifier for a target that is in Cover.

Ignore Armour:

Ignore -INJURY DICE and -INJURY MODIFIERS for a target’s Armour Characteristic, and for any Armour or Shield pieces of Battlekit that it has, for attacks that have this Keyword.

Negate [Keyword]:

A model with the NEGATE Keyword is not affected by the specified Keyword’s Effect. For example, a model with NEGATE SHRAPNEL ignores the Effect of the SHRAPNEL Keyword.

Risky:

If you must make a Success Roll for a model that is using a piece of Battlekit that has this Keyword, then the Success Roll becomes a Risky Success Roll (the model’s Activation or ACTION will end if the Risky Success Roll is a Failure). For example, the Success Roll for an attack made with a Weapon that has the RISKY Keyword would become a Risky Success Roll. This Effect is ignored if the Success Roll is already a Risky Success Roll.

Strong:

A model with this Keyword is not affected by Battlekit with the Keyword HEAVY. In addition, it can equip and use one 2-Handed Melee Weapon as if it were a 1-Handed Melee Weapon.

Tough:

The first time a model with this Keyword suffers an Out of Action result on the Injury Table, it is treated as a Down result instead.
